

Osland Piping Supply

Piranha P-50 Ironworker

The Piranha Single Operator Ironworker Series has more standard workstations than any other ironworker in its class. Capabilities include punching, bending, bar shear, angle shear, round bar shear, and an integrated coper/notcher.

Capabilities of the P-50 Piranha Fifty Ton Machine are:

- Punching - Up to 13/16 hole in 3/4" mild steel (60,000 psi tensile)
- Angle Shear - Up to 4" x 4" x 1/2" thick
- Plate Shear - Up to 10" wide, 3/4" thick
- Bar Shear - Up to 1-1/2" round, 1" square
- Coper/Notcher - Up to 2-3/4" x 4" x 1/4"
- Bending - Up to 8" - 12", 14", 24" with special attachment

One person performs all machine functions and also all material handling operations.
